About College :

Yeshwant Mahavidyalaya Wardha established in 1960 under the chairmanship of late shri. Bapuraoji Deshmukh and its run by a Yeshwant Gramin Shikshan Sanstha wardha. It is affiliated to R. T. M. Nagpur University, Nagpur and offers undergraduate and postgraduate courses in Humanities, law and Home science. It has been re-accredited by NAAC at B ++ grade in the third cycle. The vision of college is to provide excellent academic orientation to the learner coming from rural area.

About Department :

The subject Geography had been introduced in the college in 1967. The department has been well oriented to student centric approaches in teaching and learning by developing healthy ties with students. Department is well equipped with surveying and weather instruments. Department consistently organised seminar and study tours to geographical places for students.

About conference :

At present, the serious issue of climate change has been discussed on global platform. Global warming, rising sea levels, drought, storms, heat waves these all are impacts of climate change. Human sectors like Agriculture, Transportation, Industries and Tourism are also affected by climate change. So it is indispensable to discuss the climate change for security and sustainable development of human beings for future. Geographical Information System (GIS) will be discuss in this E-Conference it is one of the tools to address these changes in climate. Geographical Information System (GIS) is a technology that provides the means to collect and use geographic data to assist in the development of Agriculture, Urban planning, Cartography, River basin planning and Environmental Impact Analysis.
